

*I had been in private practice over 25 years and had grown increasingly dissatisfied with the billing service I was using. I knew I was losing money because I had accounts that had been denied due to insurance issues, accounts with large outstanding balances because of lack of follow up, and accounts that had not been billed properly. I was overwhelmed with the idea of handling the billing myself. Luckily, I found Erica at Silver Billing Services. It's like having an office administrator who is knowledgeable and trustworthy on the other end of my telephone. Now I can use my time for clinical issues and rest assured that the billing is being taken care of professionally and competently. I've never been this satisfied in all the time I've been in practice. Thanks, Erica!*
